6. Remington & Vernick Engineers, the Board engineers, prepared a report to the Board on the application dated September 16, 2024. The Board hereby adopts the findings in the reports and incorporates them in this Resolution by reference.

7. The applicant's expert, Jeff Daum, PE, PP, testified that the purpose of the previously approved subdivision was to create a new buildable lot in the rear of the existing parcel. As a result of some final surveying work, some of the dimensions previously approved by the Board need to be adjusted in a *de minimus* way, as set forth above, which is consistent with the Board's previous findings regarding the same. No other variances will be needed for the new building lot 13.02, and construction of the new house will be in accordance with the building envelope provided by application of the Township's setback ordinances. The testimony elicited supported the applicant's contention that the proposed subdivision amendment is in keeping with the area and that the granting of the application would in no way be detrimental to the public good.

The Little Egg Harbor Township Planning Board concurs with these representations and so finds.

**WHEREAS**, the Planning Board has determined that the applicant should be granted the requested relief for the following reasons:

1. The proposed subdivision amendments will pose no danger to the surrounding area.
2. The granting of the application will not have a substantial detriment to the public good and will not substantially impair the intent and purpose of the Zone Plan, Master Plan, and/or Zoning Ordinances of the Township of Little Egg Harbor.
